

Australasian Association of
Nuclear Medicine Specialists

THERANOSTICS CERTIFICATION PROCESS/FLOWCHART – LEGACY PROVIDERS

STEP ONE

Applicant completes certification form – requirements:

- **credentialed NM specialist**
- **required number of cases completed at a theranostics site aligned with the principles of the AANMS Theranostics Position Statement**
- **one current NM provider number and location (solely as unique identifier)**
- **signed by applicant as true and correct.**

AANMS enters application details on AANMS database; sends forms to AANMS Theranostics Committee.

STEP TWO

- **AANMS Theranostics Committee conducts initial review of all applications for legacy providers.**
- **Applications requiring additional information: returned to applicant for provision of required information (within a required timeframe).**

STEP THREE

- **AANMS Theranostics Committee sends recommendations for approval to CJCT in Nuclear Medicine for ratification.**
- **CJCT ratifies approved applications/list and advises AANMS Theranostics Committee**
- **AANMS sends certifying letter to applicants**
- **List of all approved applicants provided to AANMS to enable update of database**
